SUMMARY

UI/UX Developer with 2.5+ years of experience specializing in creating clean, responsive, and accessible web interfaces using HTML5, CSS3, JavaScript, and modern CSS frameworks. Skilled in translating Figma, PSD, and legacy layouts into pixel-perfect, maintainable, and scalable front-end solutions. Experienced in collaborating closely with UX and design teams to implement intuitive, user-friendly interfaces, ensuring high-quality user experiences, cross-browser compatibility, and front-end performance optimization.

EXPERIENCE

Web Developer – ELK Education Consultant | 11/2023 – 04/2025

- Developed and redesigned 20+ responsive, user-friendly websites using HTML5, CSS3, JavaScript, and frameworks.
- Converted Figma, PSD, and wireframes into pixel-perfect, high-quality UI with attention to layout and typography.
- Rebuilt legacy websites from archived layouts, recreating UI from scratch and improving structure and maintainability.
- Created modular, reusable UI components to ensure design consistency and faster development.
- Implemented responsive layouts using Flexbox, CSS Grid, and media queries for seamless multi-device support.
- Improved navigation flow, layout hierarchy, and content readability to enhance usability and engagement.
- Ensured cross-browser compatibility by identifying and fixing UI inconsistencies across major browsers.
- Optimized UI performance and resolved UI-related SEO issues affecting load time and user experience.

Front-End Developer – Digisalor | 09/2022 – 10/2023

- Built responsive, pixel-perfect web pages using HTML, CSS, and JavaScript.
- Converted UI designs into clean, reusable front-end components.
- Improved page load speed and fixed layout issues across browsers and devices.
- Collaborated with designers to ensure accurate UI implementation.

Freelance Experience

Raadhi Dental Clinic | India | www.raadidental.com

- Built a responsive website using HTML5, CSS3, JavaScript, and PHP.
- Applied SEO techniques, page speed optimization, and accessibility best practices.
- Tested and validated the site using Chrome DevTools, Screaming Frog, and W3C Validator.

Nissi International Trading LLC | UAE | nissi-40765.web.app

- Developing a responsive corporate website to strengthen the company's online presence.
- Showcasing a wide product portfolio including heavy equipment, vehicles, and industrial materials.
- Implementing SEO best practices and user-friendly navigation for better reach and engagement.
- Integrating contact and inquiry features to support efficient client communication.
